The unique shape and surface texture of Kusuma Nusantara by CLAYO which has a contemporary nuance but still elegant. Carefully crafted and detailed with irregular rim accents and resembling flower petals with a combination of natural colors of pottery and steel. Kusuma, which in Sanskrit means flower, inspired the birth of Kusuma Nusantara by CLAYO, taking the characteristics of flowers that are elegant but still sturdy like pottery and steel

Every natural stone that inspires CLAYO in making works always brings distinctiveness with different qualities. Moon Biduri Stone is one type of agate that is a phenomenon with a variety of types that can be alluring. Biduri Bulan Stone or known as moonstones in Indonesia has been known for a long time its beauty. Splint itself in the sense that it is often referred to as a precious stone. Like precious stones in general, the original moon splint from nature takes a long time even up to hundreds of years to produce with beautiful results. Biduri Bulan by CLAYO is shaped simply but attractively, its smooth surface and color selection make the food served on it stand out

Bamboo slats are often used for food containers very attached to Asian culture, plants that are abundant in Asia, especially in Japan, grow very quickly and are adaptable. Aside from the long lifespan of this plant and often symbolized as a symbol of humility, Speaking of Japanese gastronomy then we can't possibly miss sushi. Sushi is one of the most famous Japanese foods in the world, just like bamboo and sushi always have their own charm, both as a food, and as a culture. CLAYO combines the two to produce an authentic and alluring work, Bamboo Sushi by CLAYO which is made to resemble bamboo slats with a choice of natural colors will be even more alluring when served with Sushi and other snacks
